The Pentecostal Assembly School,
Bokaro Steel City, Jharkhand

2018

PROJECTS

NEWSLETTER SIGNUP WEBAPP

- Used **Express** and **Node.js** to create this.
- Integrated **Mailchimp API** to save user data.
- Used **HTML**, **CSS** and **Bootstrap** to create a landing page.
- Used **BodyParser**, **Request** and **HTTPS** modules.

RAIN ALERT PYTHON APP

- Used **Python** to create an app which sends SMS alerts in case of rain.
- Used **Openweather API** to access weather data.
- Used **Twilio API** to send SMS alerts to phone numbers.

CLASSIC SNAKE GAME IN PYTHON

- Used **Python** to create a classic snake game which saves user score in txt file.
- Used **Turtle** library to build the **GUI**.
- Divided the program into **modules**.

ACHIEVEMENTS

- Participated in TechTogether Digital hackathon organised by MLH
- Solved 200+ problems in HackerRank, LeetCode, GFG.
